

**Career Opportunity @ TRIARQ Health, India**

## **Python Developer**

**TRIARQ Health** is a Physician Practice Services company that partners with doctors to run modern patient-centered practices so they can be rewarded for delivering high-value care. TRIARQ's Physician-led partnerships simplify practices' transition to value-based care by combining our proprietary, cloud-based practice, care management platform and patient engagement services to help doctors focus on better outcomes.

**Industry Type:** IT-Software, Software Services

**Location:** Pune

**Division:** Healthcare Technology

**Number of positions:** 1

### **Job Description:**

We are seeking a talented and motivated Python Developer with a minimum of 2 years of experience and a strong understanding of SQL. The ideal candidate should be proficient in Python programming and possess the ability to work with databases using SQL. This role involves designing, developing, testing, and maintaining Python applications with a focus on database integration.

### **Responsibilities:**

1. Develop and maintain Python-based applications.
2. Collaborate with cross-functional teams to understand project requirements and deliver high-quality software solutions.
3. Design, implement, and maintain efficient, reusable, and reliable code.
4. Integrate data storage solutions using SQL databases.
5. Write effective and scalable SQL queries to extract, update, and manipulate data.
6. Perform unit testing and debugging to ensure software functionality and performance.
7. Collaborate with front-end developers to integrate user-facing elements using server-side logic.
8. Stay updated on industry trends and best practices to ensure continuous improvement.

### **Requirements:**

1. Bachelor's degree in Computer Science, Information Technology, or a related field.
2. Minimum of 2 years of professional experience as a Python Developer.
3. Strong proficiency in Python programming language.
4. Solid understanding of SQL and experience working with relational databases.

5. Knowledge of web frameworks such as Django or Flask is a plus.
6. Familiarity with front-end technologies (HTML, CSS, JavaScript) is advantageous.
7. Experience with version control systems, such as Git.
8. Strong problem-solving and analytical skills.
9. Excellent communication and collaboration skills.
10. Ability to work independently and as part of a team in a fast-paced environment.

**Preferred Skills:**

- ✓ Experience with cloud platforms (e.g., AWS, Azure, or Google Cloud).
- ✓ Familiarity with RESTful API development.
- ✓ Understanding of software development best practices and methodologies.
